TECHNICAL ASSISTANCE GRANT PROGRAM OVERVIEW

On March 11, 2021, President Biden signed into law the American Rescue Plan Act of 2021, which provided \$10 billion to fund the State Small Business Credit Initiative (SSBCI). Through SSBCI, Treasury will provide funds to states, the District of Columbia, territories, and Tribal governments for small business credit support and investment programs (capital programs) and technical assistance (TA) for very small businesses (VSBs) and business enterprises owned and controlled by socially and economically disadvantaged individuals (SEDI-owned businesses) applying for SSBCI capital programs or other federal or jurisdiction programs that support small businesses.

Treasury intends to award technical assistance funds to jurisdictions as federal grants (the TA Grant Program). The SSBCI TA Grant Program Assistance Listing No. 21.031 may be accessed at <https://sam.gov/fal/3af6a8cf39e14276a1b74d9fe8a3c2ed/view>. Jurisdictions that submit a complete SSBCI capital program application by the applicable deadline may apply for TA Grant Program funds.

SECTION 5: TECHNICAL ASSISTANCE PLAN

SECTION 5.1: PROGRAM DESIGN

Eligible recipients are required to submit a TA plan as part of their application for TA Grant Program funding.

Eligible recipients must describe each project for which they will use TA Grant Program funds. Specifically, eligible recipients must address the following:

1. Data-driven assessment of the needs of eligible beneficiaries in the eligible recipient’s jurisdiction. Eligible recipients must provide information and data that they have used to design their TA projects in a way that effectively addresses eligible beneficiaries’ needs, particularly information and data on barriers to capital access. Information and data may include information from organizations and businesses associated with eligible beneficiaries; historical records and research reports on the need for small business legal, accounting, and financial advisory services in the jurisdiction; and statistical data on local economic conditions such as unemployment or job-creation numbers.
2. The organizational capacity and ability of the TA providers. Eligible recipients must describe the proposed TA providers and, if applicable, the process for identifying future TA providers, such as eligible recipients’ procurement processes. Eligible recipients must discuss their capability to directly implement the TA project or to manage subrecipient or contractor implementation. Eligible recipients must also discuss any subrecipient’s or contractor’s capability to implement the TA project or to manage the implementation of lower-tier subrecipients or contractors. Eligible recipients must discuss the process, sources, and tools used in identifying and determining the capability of the TA providers. Eligible recipients must address requirements set forth under “TA Provider Requirement: Connection to Economic Benefits” in Section V.b and “TA Provider Requirement: Prioritization of SEDI-Owned Businesses as Providers” in Section V.c of the TA Grant Program Guidelines.
3. The connection between the TA project and SSBCI or other program that supports small businesses. Eligible beneficiaries are VSBs and SEDI-owned businesses that are applying for, preparing to apply for, or previously applied for an SSBCI capital program or other federal or other jurisdiction small business program. Accordingly, eligible recipients must describe how the project is connected to the relevant small business programs. For example, where an eligible recipient’s capital program is focused on capital access for small manufacturing enterprises (SMEs), the eligible recipient’s TA Grant Program application should include information connecting TA projects to the needs of SMEs that

are SEDI-owned businesses and VSBs applying for an SSBCI program or other federal or other jurisdiction small business program. This could include information on how the planned TA services are expected to help SME eligible beneficiaries to, for example, implement new technologies, build relationships with local distributors, or reduce energy costs.

4. The strategy and efforts to reach SEDI-owned businesses and VSBs that are eligible beneficiaries. Eligible recipients should describe their strategy and efforts to reach eligible beneficiaries, such as regular internal organization meetings to assess TA project implementation and planned outreach efforts (e.g., publicity, email campaigns, neighborhood canvassing).

Please download the template [here](#) and upload the completed document.

SECTION 5.1A: PERFORMANCE GOALS

Eligible recipients must describe their performance goals and benchmarks for their TA Grant Program award. Treasury expects the duration of the period of performance for TA Grant Program awards will be up to five years. The performance measures must be tied to addressing the needs of eligible beneficiaries and explain the approach to addressing those needs. Eligible recipients must explain the output measures they will use to measure performance and the benchmarks for all identified short-, medium-, or long-term goals. Examples of output measures may include the number of newly established business organizations or the number of successful small business program applications submitted by eligible beneficiaries.

Please download the template [here](#) and upload the completed document.

SECTION 6: BUDGET AND NARRATIVE JUSTIFICATION

SECTION 6.1: PROPOSED BUDGET

Enter the requested amounts in the fields below. The amounts entered below must correspond to the amounts in the detailed budget and narrative justification template you upload in Section 6.2.

Direct Costs by Budget Category

- **Personnel: [dollar numeric field to two decimal points]**
[Help Text]: This refers to salaries and wages paid to employees of the eligible recipient who are directly involved in TA Grant Program award implementation. The budget narrative must identify the personnel category type by full-time equivalent employees (FTEs),

including FTE equivalents for part-time employees, number of personnel proposed for each personnel category, and the estimated funding amounts. The budget narrative should identify positions by title and function, include a brief description of duties, and state the rate of compensation and the amount of time to be allocated for each position. This line item does not include personnel of subrecipients; those costs are included in the “Contractual” line item below. See also 2 C.F.R. § 200.430 (Compensation – personal services).

- **Fringe Benefits: [dollar numeric field to two decimal points]**
[Help Text]: This refers to the allowances and services the eligible recipient provides to its employees as compensation in addition to regular salaries and wages. Fringe benefits include, but are not limited to, the costs of leave (vacation, family-related, sick, or military), employee insurance, pensions, and unemployment benefit plans. The budget narrative must provide a basis for the eligible recipient’s fringe benefit amount. See also 2 C.F.R. § 200.431 (Compensation – fringe benefits).
- **Travel: [dollar numeric field to two decimal points]**
[Help Text]: This refers to the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the eligible recipient. Such costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed in like circumstances in the eligible recipient’s non-federally funded activities and in accordance with the recipient’s written travel reimbursement policies. The budget narrative must provide an estimated number of trips, points of origin and destination, and purpose of travel. It should also show how each trip (or type of trip) is needed to achieve the goals and objectives of the eligible recipient’s proposed projects. This line item does not include a subrecipient’s travel expenses; those costs are included in the “Contractual” line item. See also 2 C.F.R. § 200.472 (Travel costs).
- **Equipment: [dollar numeric field to two decimal points]**
[Help Text]: This refers to tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of the capitalization level established by the eligible recipient for financial statement purposes or \$5,000. The budget narrative must include an itemized listing of any proposed equipment to be purchased under the grant agreement. For each item to be purchased, provide an estimated unit cost, estimated useful life, basis for the estimated useful life, and justification for items of equipment to be purchased. Include a lease versus purchase analysis for each item of equipment. See the definition of “equipment” at 2 C.F.R. § 200.1.
- **Supplies: [dollar numeric field to two decimal points]**
[Help Text]: This refers to all tangible personal property other than equipment to be purchased under the grant agreement. For example, a computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the eligible recipient for financial statement purposes or \$5,000, regardless of the length of its useful life. The budget narrative must include a brief description of and justification for the supplies required to perform the work. These costs should be listed by major supply categories (e.g., office supplies, computer supplies), and include the estimated costs by category. See the definition of “supplies” at 2 C.F.R. § 200.1.
- **Contractual: [dollar numeric field to two decimal points]**

[Help Text]: This refers to purchases of property or services needed to carry out the project under the grant agreement. It is not specific to the legal instrument used, so this line item must include proposed subawards and contracts. The budget narrative should clearly identify the amount of funds the eligible recipient intends to award via contract or subaward, as well as the purpose of amounts to be awarded via contract or subaward.³ Before disbursing funds to any proposed subrecipient, the recipient must identify the subrecipient and provide Treasury with an itemized subrecipient budget using the same line items as specified here, with appropriate justification in a budget narrative.

- **Other: [dollar numeric field to two decimal points]**

[Help Text]: This refers to direct costs that do not fit any of the above categories, such as rent for buildings used to conduct award activities, utilities, or leased equipment, and costs for recipient personnel training. The budget narrative should list and describe other items by major type, provide a cost estimate or budget for each item, and describe the basis for the cost estimates or budget computations.

Total Program Costs

- **Total Direct Costs: [sum of Direct Costs by Budget Category amounts above; dollar numeric field to two decimal points]**

- **Total Indirect Costs: [dollar numeric field to two decimal points]**

- **[Help Text]:** In accordance with 2 C.F.R. § 200.1, indirect costs are defined as those costs incurred for a common or joint purpose benefitting more than one cost objective (i.e., program, function, activity, award, organizational subdivision, contract, or work unit), and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. Indirect costs must be supported by either a current federally approved Negotiated Indirect Cost Rate Agreement (NICRA) or, if the recipient does not have a current NICRA and receives less than \$35 million in direct federal funding per year, the eligible recipient may elect to use the *de minimis* indirect cost rate, 10 percent of modified total direct costs (MTDC), as defined at 2 C.F.R. § 200.1.⁴ Eligible recipients electing to use the *de minimis* rate should specify in the budget narrative that the recipient does not have a current NICRA and are electing to take the 10 percent *de minimis* rate.

- **Total Project Costs: [sum of Total Direct Costs and Total Indirect Costs above; dollar numeric field to two decimal points]**

- **Does the applicant have a current NICRA? [Y/N]**

- If Yes, next question will open.

³ The eligible recipient may provide the overall amount the eligible recipient intends to award via contract or subaward. If known, the eligible recipient may also identify each proposed contract and specify its purpose and estimated cost. Treasury expects the eligible recipient to make reasonable efforts to carry out its TA plan as proposed in the plan, in particular TA providers' connection to economic benefits as explained in Section V.b above, but Treasury recognizes that a plan regarding proposed TA providers may change over time. Post-award changes in the set of proposed TA providers are permitted subject to the restrictions on moving funds among direct cost categories described below in this Section V.d, the requirements for TA providers in Section III.c, and the requirements of the Uniform Guidance (2 C.F.R. Part 200), including requirements applicable to subawards and procurements.

⁴ In accordance with 2 C.F.R § 200.414(f), a recipient or subrecipient that does not have a current NICRA with the federal government and receives less than \$35 million in direct federal funding per year may elect to use a *de minimis* rate of 10 percent of MTDC.

- If No, Section 6.2 will open.
- **Program Income:** [dollar numeric field to two decimal points]
Enter the estimated amount of income, if any, expected to be generated from this TA Grant Program. Do not add or subtract this amount from the Total Program Costs.
[Help Text]: If the eligible recipient anticipates generating any program income, the eligible recipient must detail the activities that are anticipated to generate such program income and must clearly explain those amounts in the budget narrative. For purposes of the TA Grant Program, program income is defined in 2 C.F.R. § 200.1 as gross income earned by a recipient or subrecipient that is directly generated by a supported activity or earned as a result of the TA Grant Program award during the period of performance and includes, but is not limited to, fees for services performed. In accordance with 2 C.F.R. § 200.307(e)(2), any program income must be added to the TA Grant Program award and used for the purposes and under the conditions of the award. Program income must be reported on in accordance with TA Grant Program reporting guidance.

Use the space below to provide a narrative statement on the nature and source of the program income and articulate any assumptions on the amount of program income.

[Text box for program income narrative statement]

SECTION 6.2: NARRATIVE JUSTIFICATION

Please use the link [here](#) to download the template for the detailed narrative justification to support the amounts entered for each budget category above.

The eligible recipient must provide a budget narrative that identifies and explains how funds in each line item of the budget will be used to support the proposed TA projects. The budget narrative must provide specific justification for all budget categories that apply, including eligible direct cost categories (i.e., personnel, fringe benefits, travel, equipment, supplies, contractual, and other), eligible indirect costs, and program income. The budget narrative must include an explanation of the necessity, allowability, reasonableness, and allocability of proposed costs. Eligible costs must be determined in accordance with 2 C.F.R. Part 200, Subpart E and the SSBCI TA Grant Program Guidelines and other SSBCI guidance. Each cost category should be treated consistently in like circumstances as direct or indirect costs, and eligible recipients must not double-count any costs as both direct and indirect costs. The narrative should not repeat information provided in the TA plan but should provide additional detail needed to understand the amounts allocated to each budget line item. Any resources and funding dedicated to the proposed projects from other funding sources must be clearly identified in the narrative.

If applicable, the eligible recipient must clearly describe the proposed pre-award costs in the budget narrative and provide a compelling justification as to why Treasury should approve them.

If the eligible recipient submits a cost allocation plan, the recipient must provide the relevant Certificate of Cost Allocation Plan required under 2 C.F.R. § 200.415(b)(1).

SECTION 7: ASSURANCES OF COMPLIANCE WITH CIVIL RIGHTS REQUIREMENTS

If approved, TA Grant Program funding recipients must comply with legal requirements related to nondiscrimination and nondiscriminatory use of federal funds, where such laws are applicable to a recipient and any subrecipient or contracted entity operating SSBCI programs on the recipient’s behalf. To confirm that you will comply with these legal requirements if approved for TA Grant Program funding, download, review, and have the TA Authorized Official sign the assurances of compliance with civil rights requirements form and upload the signed form here.

At this time, Tribal governments do not need to submit these assurances. Treasury will notify Tribal governments if subsequent assurances are required. All other jurisdictions must submit these Assurances of Compliance with Civil Rights Requirements in order to complete the application.

Please download the template [here](#) and upload the completed document.
